Issue No. 22

In this issue[Another Successful Summer Camp in Vinogradov, Ukraine](#)[Brazil Cattle Project](#)[Update on our Biggest Project: JohJan LifeNets Academy in Kenya](#)

Greetings dear donors and friends,

We have had another wonderful year providing hope and humanitarian aid to many areas of the world. Without all of you as faithful supporters and donors we could not do this. As my husband Victor finds himself surrounded with other duties, he has turned to me for additional help. It is because of our faithful supporters, like you, that we are able to continue as a humanitarian organization.

So let me thank you from the bottom of my heart on behalf of all those whom you have helped. We are nothing without you -- each playing a part in an effort to help others. May God bless you for the part you play.

Scholarships continue to be where most of the funds are used. Below you will find three stories of how funds have been used for other needs also. Again thank you for your support, it is greatly appreciated!

Bev Kubik

Thank you for making LifeNets the charity of your choice.

All the very best to you....

Beverly Kubik
President

Another Successful Summer Camp in Vinogradov, Ukraine

~~~~~

For the fifth time in six years LifeNets has sponsored a two week program from June 24 to July 6, 2013 to teach English and provide support for a day camp at the *Light of Love* Mission in Ukraine. LifeNets has been supporting the work of Vasyl and Irina Polichko since 2001. They have made it their life's mission to help vulnerable children in their town of Vinogradov.

Seven US volunteers, Oleh Kubik, group leader, Eugene Kubik, Colin Kubik, Natasha Kubik, Winston Snyder, Matt and Maria Guske traveled on this very fulfilling mission. We would like to share reports and photos from all the participants As before, it was once again a remarkably successful project that benefited the children and those going from the United States.

We particularly thank the Scharpen Foundation and the Rock Valley Christian Church in California for their generous support of our mission to help these children, saving many of them from wasted and destructive lives.

You can read reports from all participants and see lots of photos and history of our work in Vinogradov in the links belowSummer 2013 Program!

## Brazil Cattle Project

Our project manager Jorge de Campos returned from Brazil with this report and new photos! We are happy to see healthy cattle (and people). Here's the report:

### 33% Growth, Healthy and More on the Way!

Jorge de Campos completed a successful visit to the Northern region of Brazil where he took the time to observe the condition of LifeNets cattle which was donated to members of United Church of God, Brazil, in the Amerindian village of Maloca de Moscou, 40 miles north east of Boa Vista.

Adriano da Silva from Maloca de Moscou, looks after the cattle, by letting them out into the pasture every morning and gathering them every day. He also ensures that they have the right dosage of salts and medication as necessary.

There was great joy in showing me the cattle and the area where they pasture. It is a well grassed area with many acres as far as the eye can see. It has a type of grass which was planted specifically for cattle breeding, free running water from a local stream which runs through the property, a small water reservoir and a large number of trees with plenty of shade.

Jorge, Adriano and healthy cattle

They are using the cattle to breed and to pass the gift in the future to the members in the local community.

LifeNets originally donated six heads of cattle, and currently, they have a bull, 5 cows and 2 calves. This represents a 33% growth from the original starting point. They now want to accelerate the breeding program by an additional 4 heads. They are extremely thankful to LifeNets, and hope to, with LifeNets continued support to be able to accelerate the breeding program

Jorge de Campos is the senior pastor responsible for Brazil and visits this community about three times a year.

## Update on Our Biggest Project, JohJan LifeNets Academy in Kenya

LifeNets' biggest single project to date has been building the JohJan LifeNets Academy for

equivalent grades 1-12 in remote Migori, Kenya. The school is doing well, but it is not completely finished. The founders, John and Janet Owak are building dormitories for students, some coming from neighboring Tanzania to stay through the week. So, director John Otieno asked from the funds saved from the first grants to build the classrooms to start constructing the dormitory on the land adjusted for the playing ground for the pupils. The school population is now 220 pupils, 13

New classrooms and pre-unit graduates in 2012 standing on the school compound

teaching staff and eight non-teaching staff who are being paid a salary each month. God has come with us this far. We know He will finish this work as per His and our plans.

Since 2010 LifeNets has contributed \$172,000 to this project and is happy to provide this quality school in remote Kenya that educates students from pre-school to high school.
