LifeNets: 2010 at a Glance...

Our mission is to help people in need, promote self-sufficiency and, where possible, enable the recipients to pass their benefit on to others.

Highlighted below are just some of the projects that have met real needs and changed the lives of people and communities in 2010. Thank you for helping us to make this difference!

Developing Nations Scholarship Fund

Perennially, scholarships continue to be the mainstay of LifeNets work. In 2010 about 50 students were supported by our fund. The cost per individual varies, but the average cost per student is about \$1,500 each year. Scholarships recipients are varied; they can be seeking a four or five year college degree, a one year certification, a vocational degree or finishing secondary school.

We serve people in the following countries: Malawi, Zambia, Zimbabwe, South Africa, Ghana, Ukraine, Armenia, Philippines. Several students will be graduating, and we are very hopeful that your investment in them will produce results in jobs and income. In impoverished families it is expected that the one with an income will help to support other family members so that many can benefit from the education of one.

Our star graduate from the past year is Cephass Chapamba who received a degree in clinical medicine. Cephass writes: "This will benefit me a lot in the sense that my salary with the government will rise, my responsibility at work will rise, my chance of expanding my business has increased to almost 100%, above all the community I am saving will stop travelling long distances in search of medical services since they have one right in their community. Is this not wonderful?"

Graduate Cephass Chapamba
with wife Patricia

These quotes represent the sentiments of many of the students:

From "This course of study means my life. It is going to enable me to achieve my goals. It is very important that one should get an education. Without this opportunity I don't know where my life would be. Once again, thank you!"

Others write:

"Thank you LifeNets for assisting me in getting my computer ICDL qualifications and certificate. I really do appreciate all your help as I would not have been able to do it alone. I will need this when looking for employment in the future. Thank you so much." - South Africa

"Thank you very much for making my dream come true. I feel so excited having taken a significant stride in terms of career development. I am making an effort to look for relevant employment and I pray that God will make a way very soon." - Zimbabwe

"The gift of a chance to go to a higher education institution is one of the greatest blessings bestowed upon me. I am overwhelmed with the support that has been given to me by LifeNets and so grateful to be able to study what I have a passion for. Journalism has been a career of my choice for a long time and I am truly honored to be studying it just at the right time." - South Africa

"I am so grateful for the assistance LifeNets has given me. I am currently still unemployed but confident that this qualification will greatly improve my skills and chances of getting employment." - Lesotho

The Wheelchair Project (www.lifenetswheelchairproject.org)

The LifeNets Wheelchair Project matched 52 wheelchairs to people in need in 2010. People are generous, and we again thank all those who donate wheelchairs to us. We also thank those who donate money to the cause, as not all wheelchairs donated are in working condition. Some need batteries or other minor repairs.

We also want to thank those who take the time to enter their data on our online database. It enables us to spend more time matching and less time entering requests and donations.

Here are some comments we've received:

From a person listing on a chair on our site: "I live in Bursleson Texas and a lady from Denison called me yesterday regarding her paraplegic sister. The girl's current chair arms are being held together by rubber bands. Thank you for connecting me with someone in need, your site is wonderful."

Another comment: "Stephanie called me last night and we have arranged to pick up the chair tomorrow night. Thanks for all your help; now we can ALL attend my daughter's graduation in June."

receiving two new pediatric wheelchair

Opening of Oasis of LifeNets Nursery School July 7, 2010

In 2006 LifeNets considered a project proposal by a husband-wife team of Howard and Ruth Elia. Both are schoolteachers who had a dream to build and operate a nursery school in a busy area of Lilongwe, the capital city of Malawi. When this building is fully completed, it will accommodate 100 nursery school children age three to five years old. The school will be self-sustaining. It opened on July 7, 2010 as their dream and a community need is being fulfilled.

New Cattle Project in Kenya

LifeNets is exporting the success of the ten-year old experience in Zambia to Kenya and Zimbabwe. Leaders from both those countries travelled to Zambia in April 2010 to learn about how we have helped communities achieve food security and a higher standard of living. To date, nine families in Kenya have benefited from the heifer project and there are some funds left to purchase another quality heifer for one other family member. The families who have already received the heifers are already feeling very blessed and happy. They have continued enjoying milk for food from the heifers, and they have excess milk to sell and pay for their basic needs including sugar, salt, cooking fat, oil, paraffin, and school supplies for their children. The cow dung is also being used to fertilize their garden

plots.

Special Events Fundraisers

Four Special Events were held in 2010 to raise money for various LifeNets Activities. We are ever grateful for the money raised at the Seattle Rotary Skyline club for the JohJan school construction, express deep appreciation for major fundraisers in Seattle, Fort Worth, Piscataway and North Dakota that raised money for our scholarship, water and orphan care programs.

From left to right: Kubik's with Miss Washington at Seattle's Skyline Rotary, Mandan, North Dakota Triathlon, Ft. Worth Boot Scoot and Singing "Ordinary People" at New York City brunch for Malawi orphans.

Other Ongoing Projects

We couldn't cover all our projects and activities in this report. You can see much more on our Web site www.lifenets.org.

- Medicine to three clinics in Malawi and Zambia.
- Construction of JohJan LifeNets Academy in Migori, Kenya
- Four boreholes drilled in Malawi
- Continuing support for the "Revival" Mission in Chernihev, Ukraine.
- LifeNets Orphan Care Center in Balaka, Malawi.
- Livelihood development projects in Malawi.
- Agriculture, water and Farm Credit Program in Zambia.
- U.S. chapter activity in North Dakota and Puget Sound, Washington.
