Eyeglasses headed for Brazil

Tomatoes for orphans - Zambia

Summer Camp program - Vinogradov, Ukraine

Birthing Clinic & Borehole - Salima, Malawi

Revival Centre - Chernihiv, Ukraine

# LifeNets: 2014 at a Glance...

***Our mission is to help people in need, promote self-sufficiency and, where possible, enable the recipients to pass their benefit on to others.***

Highlighted below are just some of the varied projects that have met real needs and changed the lives of people and communities in 2014. Thank you for helping us to make this difference!

## **Wheelchairs** ([lifenets.org/wheelchair](http://lifenets.org/wheelchair) and [lifenetswheelchairproject.org](http://lifenetswheelchairproject.org))

2014 was one of our best years in our 15 year history in matching wheelchairs. We optimized several processes to quickly match donations by automatically querying our inventory and finding potential recipients for those donated wheelchairs.

Our goal was to hit 100 matches for the year and we hit that on the last day. The entire year had 143 donated items and 354 requests. It was very inspiring to hear the stories of the freedom gained from these recipients who were desperate to find anything that would make their lives easier.

Michael Kubik Wheelchair Manager

## **Developing Nations Scholarship Fund** ([www.lifenets.org/scholarships](http://www.lifenets.org/scholarships))

By far, the largest LifeNets program is providing higher education opportunity for young people. In 2014 about 80 students were supported by our fund at a cost exceeding \$80,000. Scholarships recipients are varied; they can be seeking a four or five year college degree, a one year certification, a vocational degree or be finishing secondary school. We serve people in the following countries: Malawi, Zambia, Philippines, Central and Latin America, Brazil. Our purpose is to provide them quality schooling in their country where they will have an advantage of learning a profession or skill, get a good job, support their families and become pillars in their communities and churches.

## **Supported and Partnered with Youth Corps Agricultural Project in Brazil** (<http://lifenets.org/brazil/dec2014/meganrpt.html>)

Starting December 16th, 2014 the combined efforts of Good Works, LifeNets, and the United Youth Core (UYC) sponsored seven individuals and the Senior Pastor of Brazil, Jorge de Campos, to travel to Maloca de Moscou, Brazil, a rural village an hour and a half outside the city of Boa Vista. This tiny village is populated with loving, giving, open-minded, God-fearing people who welcomed us whole-heartedly. Our mission was to incorporate our knowledge of a sustainable growth program with the agricultural knowledge that the people of this village already had. Our presence here also served to provide more of a work force to plant a community garden and orchard.

## **Philippines Rebuilding from Haiyan Destruction** (<http://lifenets.org/typhoon2013>)

Here are two of the six homes that LifeNets completely rebuilt on Leyte when we visited in January 2014. Seven roofs have been replaced as well. Construction of homes was done with concrete instead of wood to withstand typhoon winds.

## **Bore hole in Northeast Zambia**

(<http://lifenets.org/zambia/kalukanya.html>)

Ambassador Bible College Charity Evening event raised \$7000 towards \$8000 borehole in remote NE Zambia that now provides water for an entire community. Even the Zambian government has not been able to reach and service people in this remote 50km away from the Isoka area.

## Helping Refugees in War-torn Eastern Ukraine (<http://lifenets.org/ukraine1/war.html>)

Through our contacts on the ground near the war, we have been able to help several families, mostly elderly and mothers with small children, in desperate situations. They have gone through extreme hardship in an area where more than 7,000 soldiers and civilians were killed. We send monetary aid monthly that is used for food, medicing, clothing and blankets.

## Vinogradov, Ukraine Children ([lifenets.org/vinogradov](http://lifenets.org/vinogradov))

Since 2001, with the generous help of the Scharpen Foundation and others, we have supported the “Life of Love” Mission directed by Vasyl and Irina Polichko who having no children of their own, yet have cared for neglected and abused children in their Trans Carpathian town for years. The help has been primarily for the operation of a soup kitchen for street children.

In the summer of 2014 we sent another delegation of three to work a summer day camp at the Mission. They helped not only teach English but helped with children’s activities. This project has been joyous to us as it has provided not only help for the children, but an unforgettable experience for the volunteers. This was the sixth time in seven years that we provided this venue .

The work of the Polichko’s has been instrumental in dramatically changing the lives of children destined to failure. They now become responsible citizens. We have provided technical school scholarships for some of the children who have grown up and who now have meaningful professions.

## Tractor for Thailand (<http://lifenets.org/thailand/tractor.html>)

The Luker Foundation, through LifeNets, donates \$10,000 for tractor to be used by Legacy Foundation in Thailand for operation in small rice paddies. A smaller tractor is best to operate in the limited space of each paddy. This will help more people in the area with food security.

## Other Ongoing Projects

We couldn’t cover all our projects and activities in this report. You can see much more on our Web site [www.lifenets.org](http://www.lifenets.org).

- “Revival” Center in the Chernihev, Ukraine near Chernobyl
- Kids for Cows
- Livelihood support
- Eyeglasses
- ....and more....
