

## ***Brief Report – March, 2016***

In this month, we have helped many refugees from the East of Ukraine and large families from the Mikolayiv city who are in need of food. We helped a large family of refugees to pay for the services of gas and home heating because they could not do it and asked us to help them.

We also visited a retirement home in the city of Mykolayiv, where there are many refugee families, and bought food for their children.

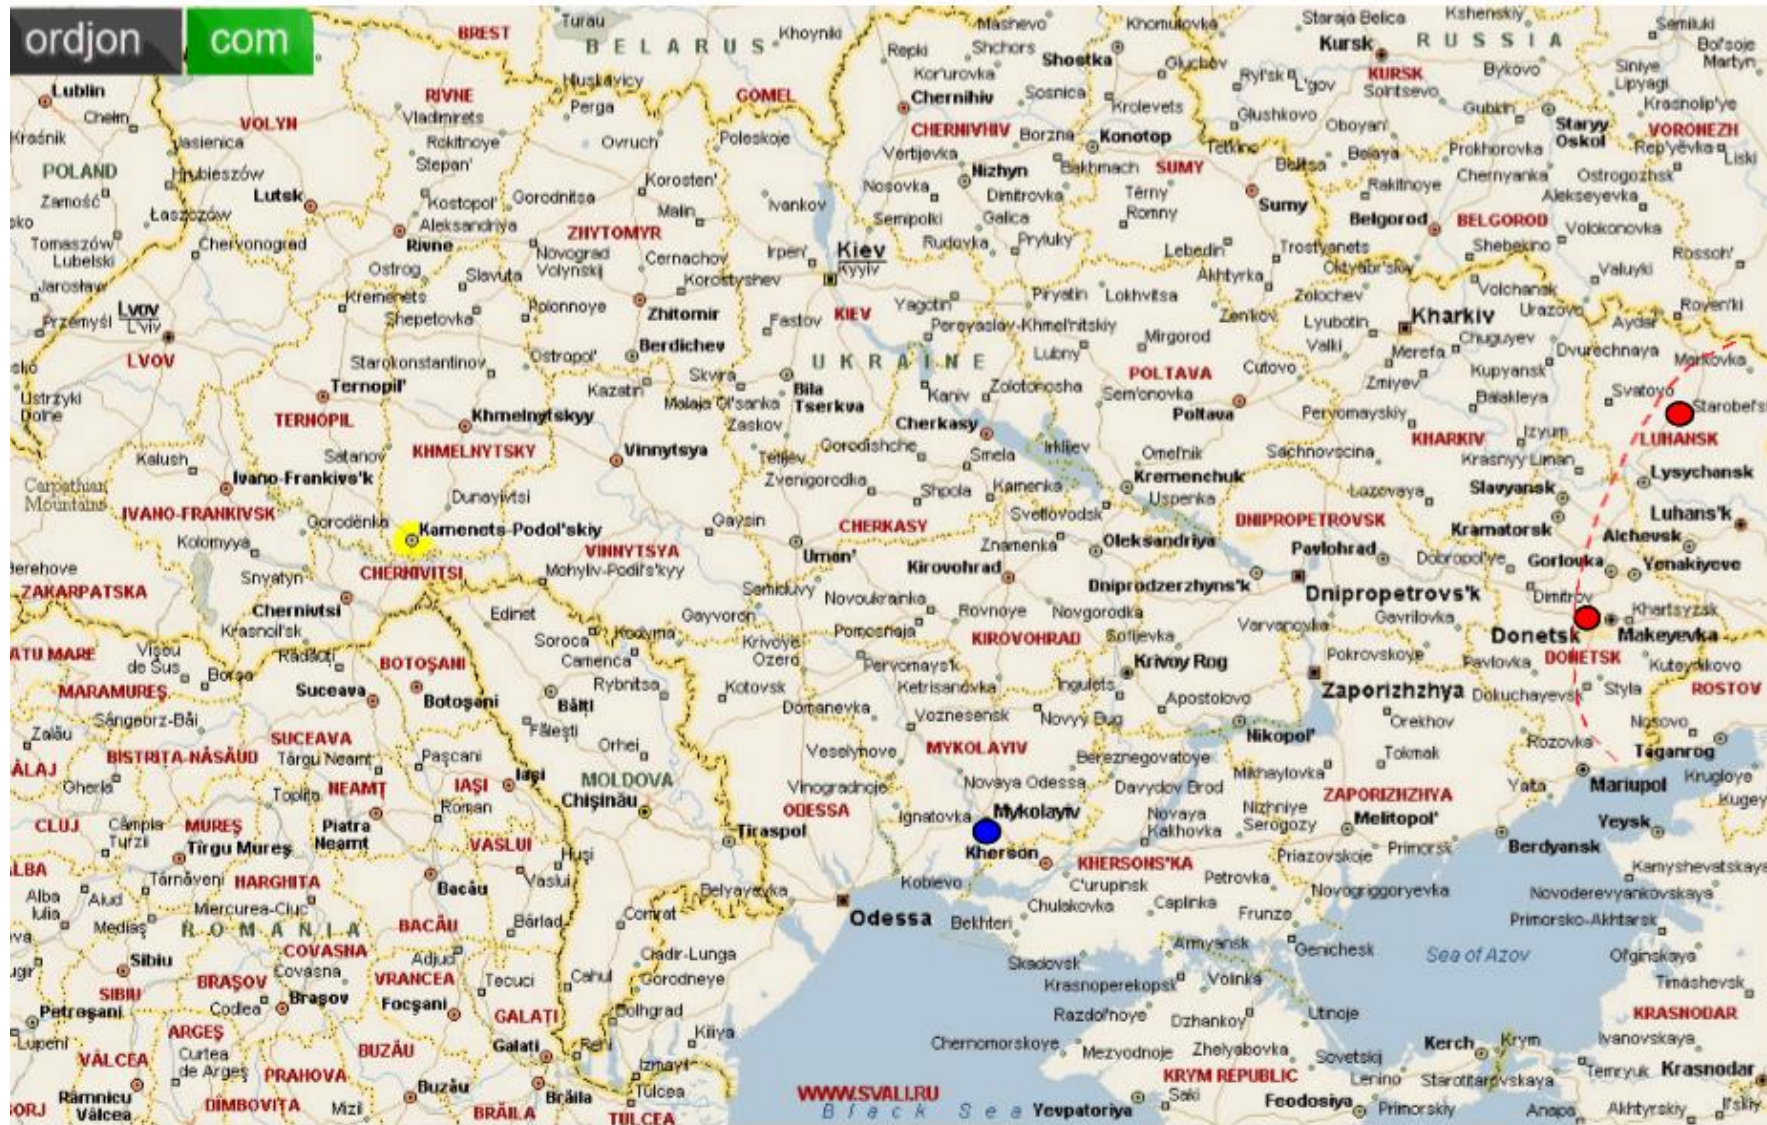

Below are two maps of Ukraine. On the first map the red color shows the city from which people escaped and the blue shows the city of Mikolayiv (the city where we are helping the refugees). The second map shows the situation in the Eastern regions of Ukraine. In March, Russian terrorists intensified their fighting near Avdeevka, Donetsk area. The situation is complicated.

Some of the funds were spent for my travels in Mikolayiv and back in New Odessa.
