18	19	20	21	22	23 2000—First meeting of the LifeNets South African Management Team	24
25	26	27	28	29	30	31 

Dear Friend,

Again, we thank our donors and volunteers for their support of our Mission to help the disadvantaged. This includes assisting people in some of the poorest countries of the world who now have hope because of the various opportunities we provide: education, medicine, food, water wells, livelihood development and much more.

We have helped vulnerable orphans in Malawi who had high mortality rates, but with medicine, food and care, we have been able to bring that rate to almost zero in the communities where we work.

This calendar gives a glimpse into our varied activities. As we look at the pictures ourselves, we see the full circle of your support to responsible program administrators who ensure that every dollar is used as effectively as possible. We appreciate your trust and support.

Our most ambitious project for the coming year is a school for about 400 children in rural Migori, Kenya. It is already under construction and 90 students are already studying in an uplifting environment. We hope to complete the school by the end of 2011.

Thank you for your interest and support!

With heartfelt thanks,

Victor Kubik, President

LifeNets needs your help on these projects

Program	What's Been Completed	What is Still Needed
Global outreach	The most effective way to help is financially. We leverage each donated dollar more than 20 times with matching funds, buying medicine at pennies on the dollar and via many other concessions.	LifeNets is a 501(c)(3) exempt charity, and tax-deductible donations can be sent by mail. Also, credit card and PayPal donations can be made easily. Please go to our home page at www.LifeNets.org for details.
Wheelchairs	We have given away several hundred wheelchairs of various types, from basic models to motorized power chairs.	We are always in need of freely donated, good condition wheelchairs of any type. The demand is always more than the supply. Visit our automated site at www.LifeNetsWheelchairProject.com or call Michael at (317) 300-4565 (Monday to Friday 9 to 9 Eastern time).
Scholarships	We are now helping pay university tuition for about 40 young adults in developing countries. A very much appreciated and needed program.	Our continual need is to sustain this fund so that we can maintain and grow the number of students in school. We need more sponsors.
Medicine	Every year the cost of sending medicine to Malawi and Zambia is about \$6,000. This buys about \$100,000 in US wholesale value of medicine that is dispensed by clinics in Malawi and in two remote communities in Zambia.	We need to raise funds for this ongoing project that is saving the lives of many children. It is dispensed through people we know and have worked with for many years.
JohJan LifeNets Academy in Migori, Kenya	Our goal has been to provide a much-needed quality school in an area where government schools are greatly lacking. 2010 construction has made it possible to operate the school with 90 students. Full capacity at completion will be about 400.	Our goal is to raise \$60,000 towards the school in the year 2011.
